PROFILE

Software Engineering student at Binh Duong University with a strong willingness to learn and seek an internship opportunity. Possesses basic knowledge of software development and problem solving through academic and personal project. Familiar with general computer skills and office tools such as Word, Excel and PowerPoint. Proficient in using AI tools to boost productivity in job.

EDUCATION

Binh Duong University (BDU) — Software Engineering

Class of 2027

PROJECTS

Web ChatGPT

github.com/NiTz130/web-chatgpt

React 19 · TypeScript · Vite · OpenAI · 2026

Full-stack AI assistant UI with Node proxy to OpenAI Responses & Image APIs. Includes 10 specialized skills (translator, resume, email), PDF/DOCX/ZIP export, voice input, image generation with model fallback. Live at web-chatgpt-theta.vercel.app.

React 19 TypeScript 5.8 Vite 7 OpenAI Vercel + Render

VietDub (viethoaphim)

github.com/NiTz130/viethoaphim

Python · PaddleOCR · faster-whisper · MiniMax LLM/TTS · 2026

Automated CLI pipeline for Vietnamese dubbing of Chinese cartoon videos. Integrates PaddleOCR for hard-sub detection, faster-whisper for STT, MiniMax LLM for translation, and MiniMax Speech for TTS. Includes CI and OCR regression harness.

Python 3.11+ PaddleOCR 3.x faster-whisper Anthropic SDK pytest

Air Quality Monitoring

github.com/NiTz130/air-quality

React · FastAPI · Fuzzy Logic · 2025

Real-time classroom air quality dashboard with automatic ventilation control via Fuzzy Logic. React 18 frontend with Recharts, FastAPI backend processing CSV sensor data, scikit-fuzzy for inference.

React 18 FastAPI scikit-fuzzy Pandas Recharts

Travel App

github.com/NiTz130/travel-app

Flutter · Firebase · 2025

Android travel planning app — Firebase Auth + Firestore + BLoC state management, integrates Google Maps, Pexels imagery, and weather APIs. Firebase Emulator configured for local dev.

Flutter 3.x Firebase flutter_bloc Syncfusion Maps

Video To Audio

github.com/NiTz130/app-videotoaudio

Python · Tkinter · FFmpeg · 2026

Windows desktop app for extracting audio from video files. Tkinter GUI, bundles FFmpeg via imageio-ffmpeg (no manual install needed), packaged as .exe with PyInstaller. Supports MP3, M4A, WAV, FLAC, OGG, OPUS output.

Python 3.8+ Tkinter FFmpeg PyInstaller
